1. Company Overview

FinTech Solutions Oy (FI-2456781-9) is a Finnish technology company specialising in digital payment infrastructure for the European banking sector. Headquartered in Helsinki and founded in 2015, the company employs 320 people across Finland, Estonia, and Germany.

2. Financial Highlights

Revenue: EUR 85 million (2024: EUR 62 million)
EBITDA: EUR 22 million (2024: EUR 14 million)
Net income: EUR 12 million (2024: EUR 5.5 million)
Total assets: EUR 145 million
Total equity: EUR 95 million
Total debt: EUR 20 million
Total liabilities: EUR 50 million
Cash: EUR 38 million

Revenue grew 37% driven by expansion of our real-time payment API to 12 new bank partners and the launch of the Open Banking Gateway product in Q2 2025.

3. Products & Services

1. Real-Time Payment API - processes EUR 2.1 billion annually
2. Open Banking Gateway - PSD2 compliant aggregation platform
3. KYC/AML-as-a-Service - automated identity verification
4. Treasury Dashboard - real-time liquidity management for corporate clients

The company holds a Payment Institution licence from the Finnish Financial Supervisory Authority (FIN-FSA) and is registered under PSD2.

4. Risk Management

Key risks: operational (system availability SLA 99.95%), cybersecurity (SOC 2 Type II certified), regulatory (PSD2/PSD3 transition), and counterparty credit risk (limited, as funds remain in client trust accounts).

The company complies with DORA requirements for ICT risk management and has completed resilience testing with two designated critical service providers.

5. Sustainability

As a technology firm, FinTech Solutions has a limited environmental footprint. Cloud infrastructure is hosted on AWS (eu-north-1) which runs on 100% renewable energy. Total Scope 1+2 emissions: 45 tCO2e (office operations only).

Social: 44% of engineering team is female. Flexible remote-first policy. No supply chain human rights concerns identified.
Governance: Board has 7 members, 3 independent. No ESG committee (considered immaterial given sector and size).
