1. Facility Request

Borrower	FinTech Solutions Oy (FI-2456781-9)
Facility Type	Revolving Credit Facility
Amount Requested	EUR 15 million
Purpose	Working capital and potential acquisition financing
Tenor	3 years with 2x 1-year extension options
Pricing	EURIBOR 3M + 120 bps
Collateral	Unsecured; negative pledge on key assets

2. Business Rationale

FinTech Solutions is experiencing rapid growth (37% YoY revenue) and requires a flexible credit facility to support working capital needs during periods of customer onboarding (typical 60-90 day payment terms from bank clients).

The facility may also be drawn to finance bolt-on acquisitions in the regulatory technology (RegTech) space, targeting companies with EUR 3-8 million revenue.

3. Repayment Capacity

Strong cash generation: EUR 22 million EBITDA with minimal capex requirements (EUR 4 million p.a., primarily capitalised software development).
Free cash flow: EUR 16 million (2025).
Cash reserves: EUR 38 million (well above requested facility size).
Debt-to-equity: 0.21x (significantly below sector average of 0.8x).

4. Management

CEO: Jukka Virtanen (co-founder, former Nordea Digital Banking lead).
CTO: Anna Korhonen (co-founder, ex-Google, 8 patents in payment tech).
CFO: Mikko Laakso (former CFO at Basware Oyj, 20 years in SaaS finance).

Investors: Nordic Capital (Series B lead), Supercell founder angel fund.
