1. Company Overview

Nordvik Energy AB (org. nr 556789-1234) is a Swedish mid-cap energy company headquartered in Gothenburg. Founded in 1978, the company operates across the Nordic region with activities spanning upstream exploration, renewable power generation, and district heating distribution. As of 31 December 2025, Nordvik employs 1,240 full-time equivalents across Sweden, Norway, and Finland.

2. Financial Highlights

Revenue: SEK 4,850 million (2024: SEK 4,520 million)
EBITDA: SEK 980 million (2024: SEK 910 million)
Net income: SEK 420 million (2024: SEK 380 million)
Total assets: SEK 8,200 million
Total equity: SEK 3,100 million
Total debt: SEK 2,600 million
Total liabilities: SEK 5,100 million
Return on equity: 13.5%
Net debt / EBITDA: 2.7x

Revenue grew 7.3% year-over-year driven by higher electricity spot prices and the commissioning of the Vastervik wind farm (120 MW).

3. Risk Management

Nordvik applies the three lines of defence model. The Chief Risk Officer reports directly to the Board Risk Committee. Key risk categories include commodity price risk, regulatory and compliance risk, operational risk, and credit risk on counterparty exposures. The company maintains a Value-at-Risk limit of SEK 50 million at 95% confidence for its trading book.

4. Sustainability and ESG

Nordvik has set a net-zero target for Scope 1 and Scope 2 emissions by 2040. In 2025 total GHG emissions were 185,000 tCO2e (Scope 1: 120,000, Scope 2: 65,000). Scope 3 emissions are estimated at 1.2 million tCO2e but are not yet independently verified.

The company's transition plan includes:
- Phase-out of fossil-fuel district heating by 2032
- 500 MW of new renewable capacity by 2030
- Green bond framework aligned to EU Taxonomy objectives for climate mitigation

EU Taxonomy alignment of capex: 35% eligible, 22% aligned.
Water stress: two facilities in southern Sweden are located in moderate water stress zones per WRI Aqueduct mapping. No biodiversity impact assessments have been completed for new wind installations.

Social: The company reports a gender pay gap of 6.2% and has implemented supply chain due diligence per the Norwegian Transparency Act. No human rights violations were identified in 2025. Board diversity: 40% female directors.

5. Corporate Governance

The Board of Directors comprises 10 members, including 3 employee representatives. The Audit Committee held 8 meetings during the year. The Nomination Committee follows the Swedish Corporate Governance Code. Related-party transactions are disclosed in Note 34 of the consolidated financial statements.

6. Outlook 2026

Management expects revenue in the range of SEK 5,000-5,300 million for 2026, supported by new wind capacity and stable district

heating demand. Capex is planned at SEK 1,200 million, of which 60% is taxonomy-aligned renewable investment. The company will publish its first CSRD-compliant sustainability report in Q1 2027.
